This Key Information Document is accurate as at 30 June 2024.

## What is this product?

### Type

The Fund is a UCITS and a sub-fund of Carnegie Investment Fund ("CIF"), an investment company with variable share capital (SICAV) organized as an umbrella fund governed by Luxembourg law.

### Term

The Fund is open-ended but may, at any time, be dissolved by decision of the shareholder's meeting. For more information about this, see the Prospectus of the Fund.

### Objectives

The Fund aims to achieve long-term returns at least in line with or better than global equity markets. To achieve this, the Fund invests in global, including emerging markets, equities and equity-related instruments. The investment manager has full discretion to decide what equities to invest in without any reference to a benchmark and will integrate mainly environmental factors in the investment process by focusing on investments in enablers of the transition towards sustainable transports, industrial processes, buildings, food value chains as well as energy production and systems. The Fund may also invest in other transferable securities, money market instruments, fund units and other investments with equity-like characteristics. In order to make management more efficient, the Fund can also invest in derivative instruments, both long and short, both to protect (hedge) and to take active market risk and may as well enter into securities lending transactions to improve performance and generate income. The fund integrates environmental, social and corporate governance factors as per Article 8 of the EU Sustainable Finance Disclosure Regulation

(SFDR). Further information is available in the fund's prospectus and on [www.carnegie.se](http://www.carnegie.se).

The Share Class pays a dividend. The amount to be distributed is determined each year.

Shareholders may redeem its shares any day on which banks are open for business in Luxembourg and the US, other than 24 December.

### Intended Retail Investor

The Fund may be suitable for retail investors planning to keep the investment for 5 years and who understand that the money invested in the Fund can both increase and decrease in value and that they may not get back the full amount invested. Investors should have a basic knowledge and/or experience of UCITS funds and financial markets.

The performance of the Fund depends on if the Fund's investments increase or decrease in value during the holding period.

Depository: CACEIS Bank

The prospectus, annual and semi-annual reports (in English) relate to CIF as a whole and can be obtained free of charge on [www.carnegie.se](http://www.carnegie.se) together with other practical information and the latest net asset value per share.

The assets and liabilities of each sub-fund are kept separate by law which means that no sub-fund's assets can be used to pay off debt for other sub-funds.

Shareholders are entitled to convert their shares in the Fund for shares in another sub-fund of CIF. Information about conversions can be found in the prospectus of the Fund.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. The classification may change over time and is not a guarantee.

The risk indicator pre-dominantly captures market risk. For information on other risks that could affect the value of Fund, see the prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the product/its proxy between June 2023 and June 2024.

The moderate scenario occurred for an investment in the proxy between July 2018 and July 2023.

The favourable scenario occurred for an investment in the proxy between December 2018 and December 2023.

Recommended holding period: 5 years

Example Investment: SEK 100,000

Scenarios		If you exit after 1 year	If you exit after 5 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	15,460 SEK	16,260 SEK
	Average return each year	-84.54 %	-30.46 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	90,650 SEK	117,460 SEK
	Average return each year	-9.35 %	3.27 %
<b>Moderate</b>	<b>What you might get back after costs</b>	112,440 SEK	184,950 SEK
	Average return each year	12.44 %	13.09 %
<b>Favourable</b>	<b>What you might get back after costs</b>	135,630 SEK	206,500 SEK
	Average return each year	35.63 %	15.61 %

## What happens if Carne Global Fund Managers (Luxembourg) S.A is unable to pay out?

The assets of the Fund are held in safekeeping by its Depositary bank. In the event of insolvency of the Management Company, the Fund's assets will not be affected. In the event of the insolvency of the Depositary, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated by the fact that the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund.

There is no guarantee- or compensation scheme for investors in the Fund.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- SEK 100,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	1,821 SEK	17,463 SEK
Annual cost impact (*)	1.8%	2.1% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 15.1% before costs and 13.1% after costs.

#### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee but the person selling you the product may do so.	0 SEK
Exit costs	We do not charge an exit fee for this product.	0 SEK
<b>Ongoing costs [taken each year]</b>		
Management fees and other administrative or operating costs	1.8 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	1,780 SEK
Transaction costs	0.04 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	41 SEK
<b>Incidental costs taken under specific conditions</b>		
Performance fees	No performance fee is charged for this product	0 SEK

#### How long should I hold it and can I take money out early?

**Recommended holding period: 5 years**

The Fund has no minimum holding period but as it invests in equities it is suitable for investors with a medium to long-term investment horizon. Investors should be prepared to hold the fund shares at least until the end of the recommended holding period.

The Fund is normally open for subscriptions and redemptions any day on which banks are open for business in Luxembourg and the US, other than 24 December.

#### How can I complain?

Should you have a complaint about the Fund you can contact the person advising or selling it to you. You may also contact the Management Company ([complaints@carnegroup.com](mailto:complaints@carnegroup.com)) or the investment manager (<https://www.carnegie.se/private-banking/dokument-och-underlag/synpunkter/>) or write to Carnegie Investment Bank AB, Klagomålsansvarig, SE-103 38 Stockholm, Sweden).
