Carnegie Investment Fund

Investment Manager Report (unaudited)

Nordic Equity Fund and Nordic Equity Fund Screened

The performance of the Nordic equity markets has somewhat recovered after the challenging 2022. Towards the end of the year, global central banks started to indicate lower interest rates during 2024 which fueled a rally in all assets with higher risk.

Throughout the year, Nordic equity markets with the exception of index heavyweight, Novo Nordisk A/S, have lagged global markets and both NOK and SEK currencies have remained weak. In general, the Swedish equity market outperformed whereas both Denmark, Norway and especially Finland underperformed.

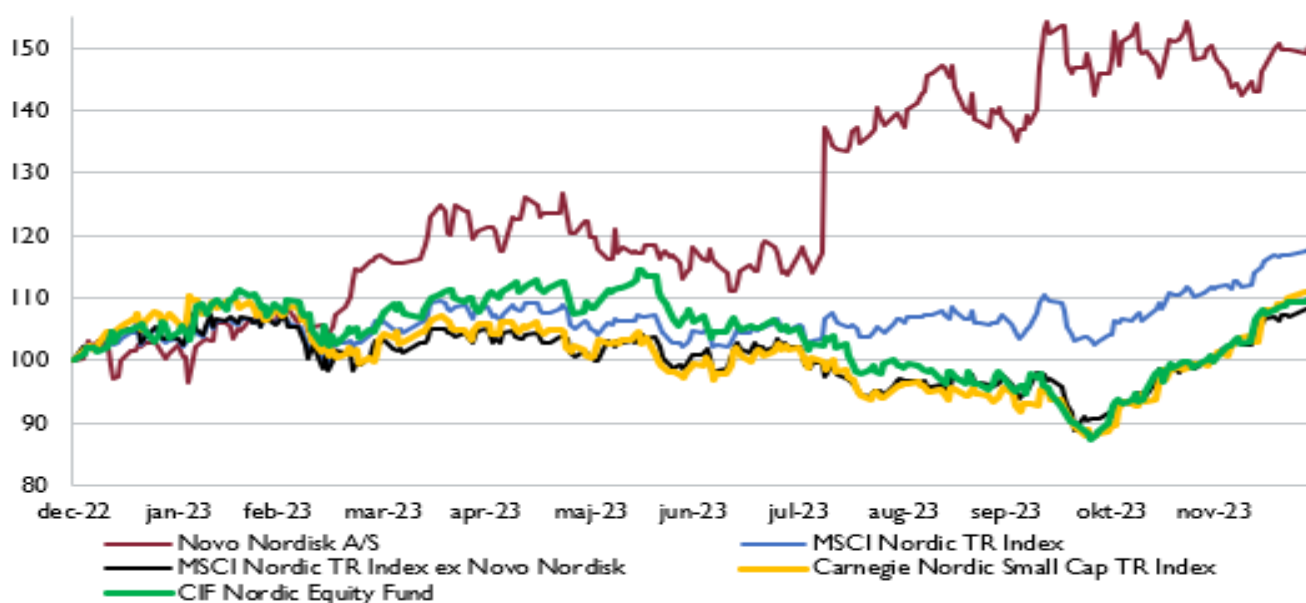

Below, please find the performance of the funds compared with the benchmark, MSCI Nordic TR Index.

At the end of the year, Novo Nordisk had a weight of around 25% of MSCI TR Index with an average weight for the year of around 23%. Novo Nordisk is now the biggest company in Europe, measured by market cap after surpassing LVMH and ASML during the year. Due to UCITS diversification regulation, the Fund can only invest a maximum of 10% in one single security.

As can be seen in the graph below, Nordic equity markets ex-Novो performed at quite a different level with a return of only around +6,5%-7%.

The underlying performance of the Carnegie Investment Funds have thus been in line with the market development.

Nordic equities 2023

Carnegie Investment Fund

Investment Manager Report (unaudited) (continued)

The fund remains committed to its long-term strategy of having a preference towards small cap stocks. Small caps generally performed in line with the overall market (ex Novo Nordisk) in 2023 with the Carnegie Nordic Small cap Index yielding a return of +9,9% in SEK.

We remain invested in the segment with currently around 25% of NAV in small cap; this is a somewhat lower share than in 2022.

Due to the weak SEK and the uncertainty during the year over the interest rate policy of the Swedish central bank, Riksbanken, and the rather tricky domestic economy in Sweden with the real-estate market being very sensitive to short term rates, we have been overweight in Swedish exporters and clearly underweight Swedish domestic names. The weak SEK of the cyclical and open Swedish economy is naturally improving the competitive situation for the Swedish exports and have had a positive effect on both top- and bottom line for these companies.

We have remained overweight in stocks like Atlas Copco, ABB, Hexagon, Beijer Ref and Nibe over the last couple of years. Towards the end of the year, these stocks did particularly well. The green transition has been and continues to be an important theme for the Funds. For quite a while we have had no exposure to the Swedish real-estate market and generally only a few investments with a large share of revenue in Sweden, 2023 turned out to be a very poor year for the companies. The renewable energy sector has had a tough year with uncertainties over subsidies, lower energy prices leading to delays in consumer transition towards sustainable energy solutions, higher interest rates and several project write-downs among major renewable infrastructure companies especially in the US.

Although the Funds have had no exposure to Vestas or Orsted, the spillover effect to our investments in Nibe AB (heat pumps) and OX2 (onshore wind farm development) from this development has been negative.

2023 has been a year of strong performance in large cap growth stocks in particular in the US, the Nordic equity market does not hold the same potential from these types of companies and exposures.

Looking into 2024, we are quite constructive on lower interest from central banks which should eventually also lead to lower interest rates in Sweden as inflation normalizes.

Valuation is fairly supportive for the small cap stocks in the Nordics with earnings growth expected to outpace larger cap stocks in both 2024 and 2025.

	EPS y/y 2023	EPS y/y 2024	EPS y/y 2025	P/E 2023	P/E 2024	P/E 2025	P/Book	Div Yield	10YR Gov Bond yield

Carnegie Investment Fund

Investment Manager Report (unaudited) (continued)

Svenska Aktier

Carnegie Svenska Aktier increased with 20,6% (share class IA0) in value during the year which was a bit better than the overall Swedish stock market that rose by 18,5% (measured as the SBX-index). Stocks started the year on a very positive note in January but then declined for most of the year until there was a strong rally in November and December. For the second year in a row large caps outperformed small caps, even though the latter staged a strong come back towards the end. Rising interest rates was the theme for most of the year and held back enthusiasm for the stock market. However, in late October markets started discounting an end to the upcycle in rates which improved sentiment and drove stocks higher. Cyclical stocks did well while more defensive stocks underperformed.

The best performers in the portfolio were Lindab, Volvo and real estate company Balder. These are all long-term holdings. But also, other industrials like ABB, Atlas Copco and Lifco had a strong year. On the other hand, the holdings in Boliden, Addnode, Nibe, Essity and Embracer were disappointments and dragged down performance. The result of the fund is mostly explained by the fate of individual stocks since there are no big sector bets on a relative basis. Industrials is by far the biggest sector in the Swedish stock market as well as in the fund.

During the year we sold our holdings in Embracer, Electrolux and Addnode due to the companies not meeting our expectations. We also exited Loomis and Autoliv since we deemed valuation to be rather full. Finally, we sold Beijer Alma mostly on the back of weak liquidity in the share. H&M and Cargotec became new holdings. H&M made a turnaround during 2023 after many years with depressed profits. Cargotec is one of the most low-priced stocks within Nordic capital goods and the planned separation of the company could be a trigger for value creation. We also increased the position in Balder during the year due to a very low valuation. On a sector level the portfolio was somewhat overweight technology and health care but underweight telecom operators and investment companies at year end. However, the strategy is more focused on individual stocks than sectors.

Carnegie Investment Bank AB, Stockholm,

March 2024

Carnegie Investment Fund

Investment Manager Report (unaudited) (continued)

Global Stock Picking Fund*

The Fund, which launched on September 29, 2023, increased with 3,5% (share class IA0, in SEK) in value since start which is in line with the world index which also increased 3,5% (measured as the net total return in SEK of the iShares MSCI World ETF). The stock markets had a hard time during October but ended the year with a strong development in the months of November and December, although the strengthening of the SEK during the period affected both the Fund and the benchmark index negatively in SEK terms. Lower interest rates were the driver of the positive stock market development during the period. This meant that companies and sectors that are more dependent on interest rates also performed the best during the period, e.g. information technology, *utilities* and real estate. Energy was the worst performing sector during the period.

The best performers being AMD, Snowflake and Qualcomm was within information technology. Other stocks that were particularly strong during the period were Hannon Armstrong Sustainable Infrastructure, Deckers Outdoor and Charles Schwab. The worst performing sector were industrials, with Chart Industries and Ameresco as the worst performing names. Other poor performers during the period were SolarEdge and BYD.

Since the launch, there have been changes in the composition, with three new holdings in Xylem, Ivanhoe Mines and ATS Corp and a exit in the Comcast holding. In total the Fund had 50 positions in the portfolio at the end of the period. On a sector level the portfolio was overweight technology, industrials, utilities and materials, in line with the overall thematic approach of the fund to focus on investments in companies that have products and solutions that can help drive the energy transition or that will benefit from the energy transition. The Fund include digitalization in the energy transition which is the reason why the information technology sector is an overweight in the fund. The Fund have no holdings in traditional energy or in real estate.

Sustainable Finance Disclosure Regulation

Information on the environmental/social characteristics promoted by the above-mentioned sub-fund is available in the appendix to these financial statements.

Carnegie Investment Bank AB, Stockholm,
March 2024

Independent auditor's report

To the Shareholders of
Carnegie Investment Fund
3, rue Jean Piret,
L-2350 Luxembourg,
Grand Duchy of Luxembourg

Opinion

We have audited the financial statements of Carnegie Investment Fund (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments as at December 31, 2023, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at December 31, 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (the "Law of July 23, 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

Building a better
working world

- Conclude on the appropriateness of Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Ernst & Young

* The sub-fund was launched on September 29, 2023.

The accompanying notes form an integral part of these financial statements.

Carnegie Investment Fund

Notes to the Financial Statements as at December 31, 2023

NOTE 1 - GENERAL INFORMATION

CARNEGIE INVESTMENT FUND (hereafter the “Company”) is an investment company established in the Grand Duchy of Luxembourg with a variable capital, (société d’investissement à capital variable), comprising separate sub-funds (the “Sub-Funds” or individually a “Sub-Fund”), on January 13, 2011. The Company is an Undertaking for Collective Investment in Transferable Securities (“UCITS”) incorporated pursuant to Part I of the Luxembourg Law of 17 December 2010 on undertakings for collective investment, as amended (the “2010 Law”). It is established for an undetermined duration from the date of the incorporation.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a) These financial statements are established in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment in transferable securities.
- b) the value of any cash at hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, dividends and interests declared or due but not yet collected will be deemed to be the full value thereof, unless it is unlikely that such values are received in full, in which case the value thereof will be determined by deducting such amount the directors consider appropriate to reflect the true value thereof.
- c) securities and money market instruments listed on a stock exchange or traded on any other regulated market will be valued at the last available price on such stock exchange or market. If a security or money market instrument is listed on several stock exchanges or markets, the last available price on the stock exchange or market, which constitutes the main market for such securities or money market instruments, will be determining.
- d) securities or money market instruments not listed on any stock exchange or traded on any regulated market or securities or money market instruments for which no price quotation is available or for which the price referred to in (b) is not representative of the fair market value, will be valued prudently, and in good faith on the basis of their reasonable foreseeable sales prices.
- e) units/shares of UCITS authorised according to Directive 2009/65/EC and/or other UCIs will be valued at the last available net asset value for such shares or units as of the relevant Valuation Date.

Assets expressed in a currency other than the currency of the relevant Sub-Fund shall be converted on the basis of the rate of exchange ruling on the relevant business day in Luxembourg.

Realised gains and losses on sales of investments have been determined on the average cost basis and include transaction costs.

Dividends are shown net of withholding tax deducted at source, and are recorded as income on the ex-dividend date.

The combined column in the financial statements of the Company is expressed in EUR and is presented for information purposes only. The figures show the combined numbers of all Sub-Funds. They are equal to the sum of the corresponding items in the financial statements of each Sub-Fund in SEK.

The currency translation adjustment in the combined column of the Statement of Operations and Changes in Net Assets relates to the retranslation of the opening Net Asset Values at the SEK to EUR exchange rate.

NOTE 3 - INVESTMENT MANAGEMENT FEE

The Investment Manager is entitled to be paid a fee for its services based on the net assets of the Sub-Fund. The fee is accrued on each Valuation Date and payable monthly:

Carnegie Investment Fund – Nordic Equity Fund (1A)	1.30%

NOTE 4 - MANAGEMENT COMPANY FEE

A fixed core Management Company Fee of a maximum of 0.0275% per annum is calculated and accrued on each Valuation Date and payable monthly for each Sub-Fund.

A pro rata split of the fixed annual fee for domiciliation services of EUR 10,000 for the Company will also be payable to the Management Company by the Sub-Funds.

Additional fees may apply for ancillary services provided to the Company and out of pocket expenses as detailed in the Management Company Agreement (or any related engagement letter).

NOTE 5 - DEPOSITARY BANK FEE

For its services, the Depositary will receive variable fees up to a total of maximum 0.100% p.a. of the NAV for Carnegie Investment Fund – Nordic Equity Fund, Carnegie Investment Fund – Svenska Aktier and Carnegie Investment Fund – Nordic Equity Fund Screened and variable fees up to a total of maximum 0.150% p.a. of the NAV for Carnegie Investment Fund – Global Stock Picking Fund* subject to an annual minimum fee of EUR 32,400 payable monthly.

The Depositary is also entitled to be reimbursed for reasonable disbursements and out of pocket services.

NOTE 6 - ADMINISTRATION FEE

In consideration for its services, the Central Administration Agent and Registrar and Transfer Agent will receive variable fees up to the total maximum rates as disclosed above in note 5. Such fees are subject to an minimum fee of EUR 24,000 per Sub-Fund and EUR 24,000 for the Fund, payable monthly.

The Central Administration Agent and Registrar and Transfer Agent is also entitled to be reimbursed for reasonable disbursements and out of pocket services as well as additional fees for ancillary services provided to the Fund.

NOTE 7 - TRANSACTION COSTS

The transaction costs represent broker transaction fees in relation to the purchases and sales of securities and financial derivative instruments during the business year. For the year ended December 31, 2023, the transaction costs amounted to:

Fund Name	Currency	Transaction Cost
Carnegie Investment Fund – Nordic Equity Fund	SEK	1,351,972
Carnegie Investment Fund – Svenska Aktier	SEK	330,215
Carnegie Investment Fund – Nordic Equity Fund Screened	SEK	289,697
Carnegie Investment Fund – Global Stock Picking Fund*	SEK	514,149

* The sub-fund was launched on September 29, 2023.

Carnegie Investment Fund

Notes to the Financial Statements as at December 31, 2023 (continued)

NOTE 8 - TAXES

The Company is registered under the Luxembourg law as an investment company (Société d'Investissement à Capital Variable "SICAV"). Accordingly, no Luxembourg income or capital gains tax is, at present, payable. It is subject, however, to an annual "taxe d'abonnement" calculated at an annual % of the net asset value of the Company at the end of each quarter, excluding investments in other Luxembourg funds already subject to tax. This tax is payable quarterly. The tax % applicable to each Share class is as follows:

Carnegie Investment Fund – Nordic Equity Fund (1A)	0.05%
Carnegie Investment Fund – Nordic Equity Fund (2A)	0.01%
Carnegie Investment Fund – Nordic Equity Fund (3A)	0.01%
Carnegie Investment Fund – Svenska Aktier (IA0)	0.01%

Carnegie Investment Fund – Global Stock Picking Fund* (RA4)	0.05%

NOTE 9 - TAXES AND EXPENSES PAYABLE

The item "Taxes and expenses payable" includes unpaid expenses during the current financial period. This includes inter alia the "taxe d'abonnement", MLRO fees, Depository Bank fees, Registrar and Transfer Agent fees, Audit fees, Director fees, Domiciliary Agency fees, Transaction fees, Administrative Agency fees, Investment Compliance fee and VAT.

* The sub-fund was launched on September 29, 2023.

Carnegie Investment Fund

Notes to the Financial Statements as at December 31, 2023 (continued)

NOTE 10 - SECURITIES LENDING

The Company has signed a contract for securities lending with RBC Investor Services Trust, who acts as securities lending agent.

As at December 31, 2023, the market value of the securities lent per Sub-Fund is as follows:

Sub-Funds	Currency	Lent Assets in Sub-Fund currency	Collateral Value in Sub-Fund currency	Gross Income in Sub-Fund Currency	RBC Investor Services Trust (fees and costs)	Net Income in Sub-Fund Currency	Net Income Converted in EUR
Svenska Aktier	SEK	795,111,180	834,873,770	1,304,778	521,911	782,867	70,323

The collateral is in the form of bonds and equities.

The securities lending revenue amounts are included under the heading Income on securities lending in the Statement of Operations and Changes in Net Assets.

A Sub-Fund may have income on Securities Lending in the Statement of Operations and Changes in Net Asset even without securities lent at year end.

The counterparties linked to the securities lending are as follows:

BNP Paribas Arbitrage SNC
BMO Nesbitt Burns Inc
BNP Paribas S.A.
Citigroup Global Markets Limited
Goldman Sachs International
Jefferies International Limited
Macquarie Bank Limited
Merrill Lynch International
Morgan Stanley & Co. Intl Plc
Natixis
Skandinaviska Enskilda Banken AB
Societe Generale
UBS AG

NOTE 11 - EXCHANGE RATES

The exchange rates used as of December 31, 2023 are:

1 SEK = 0.077838 GBP
1 SEK = 0.083515 CHF
1 SEK = 0.089828 EUR
1 SEK = 0.669627 DKK
1 SEK = 1.007728 NOK
1 SEK = 0.130842 CAD
1 SEK = 0.774825 HKD
1 SEK = 0.099228 USD

NOTE 12 - DIVIDEND DISTRIBUTION

The Board of Directors of the Company decided on December 18, 2023 to pay dividends as follows:

Sub-Fund Name	Share Class	ISIN	Dividend in SEK	Ex-date	Pay-date
Svenska Aktier	ID0	LU2122479285	3.68	December 18, 2023	December 21, 2023

Carnegie Investment Fund

Notes to the Financial Statements as at December 31, 2023 (continued)

NOTE 13 - DIRECTOR FEES

The Company is remunerating directors, representing an amount of EUR 31,050, as included in the Statement of Operations and Changes in Net Assets.

NOTE 14 - SUBSCRIPTION FEES, REDEMPTION FEES AND CONVERSION FEES

A subscription fee, payable to the Sub-Fund, may be charged upon a subscription for shares of the Sub-Fund provided that the same subscription fee shall be applied to all shareholders subscribing on the same valuation date.

A redemption fee, to be paid to the Sub-Fund, may be levied upon redemptions of shares as specified in the appendices to the prospectus provided that the same redemption fee shall be applied to all shareholders redeeming on the same valuation date.

A conversion fee, payable to the Sub-Fund from which the shareholder is redeeming, of up to 0.5% may be charged upon a conversion of shares provided that the same conversion fee shall be applied to all shareholders converting on the same valuation date.

	Subscription fee (max.)	Redemption fee (max.)	Conversion fee (max.)
Carnegie Investment Fund – Nordic Equity Fund (all share classes)	0.5%	0.5%	0.5%
Carnegie Investment Fund – Svenska Aktier (all share classes)	5.0%	N/A	0.5%
Carnegie Investment Fund – Nordic Equity Fund Screened (all share classes)	0.5%	0.5%	0.5%
Carnegie Investment Fund – Global Stock Picking Fund* (all share classes)	5.0%	N/A	0.5%

NOTE 15 - STATEMENT OF CHANGES IN PORTFOLIO COMPOSITION

Details of changes in investments for the year are available, free of charges, at the Company's head office as well as all Paying Agents.

NOTE 16 - EVENTS DURING THE YEAR

The Russian-led war in Ukraine has entered its second year. Sanctions against Russia from the international community are still in place, yet the global economic risk from a steep decline in Russian GDP is rather limited, as Russia simply does not have a large economy. Obviously oil and gas markets can still be affected by supply disruptions from Russia, but energy prices have nevertheless subsided quite dramatically. This is a direct consequence of a mild winter in Europe, increased natural gas supplies to Europe from both the US and Middle-East and a higher share of energy usage from renewable energy sources. Investments in renewable energy continue at quite a high pace with investment programs both in the US and Europe (Inflation Reduction Act and EUREPower).

On the battlefield in Ukraine, there seems to be little development. Clearly, the war can still escalate just as a peace treaty between the parties could be the outcome. Russia has recently abandoned the Black-Sea deal with Ukraine, which has the potential to affect food prices once again. We continue to monitor the situation closely and still we keep exposure to companies with topline in Russia, Ukraine and Eastern Europe at an absolute minimum. Some of our capital goods companies have a small topline to Russia (<5%), yet the development of the Chinese economy, affecting commodity prices, is currently more important than the standstill in the war. Overall we, however, still view the global geopolitical risk as higher than normal.

In October 2022, CACEIS and Royal Bank of Canada (RBC) announced they had signed a memorandum of understanding for the intended acquisition by CACEIS of the European asset servicing business of RBC. As part of this acquisition, CACEIS would acquire the entire issued share capital of RBC Investor Services Bank S.A. (IS Bank). Completion of the sale of IS Bank occurred July 03, 2023, following regulatory approval and RBC Investor Services Bank S.A. became CACEIS Investor Services Bank S.A.

The sub-fund Global Stock Picking Fund was launched on September 29, 2023.

NOTE 17 - SUBSEQUENT EVENTS

There have been no significant events which took place post year end.

* The sub-fund was launched on September 29, 2023.

Carnegie Investment Fund

Supplementary Information (unaudited)

Global Risk Exposure Calculation Method

Carnegie Investment Fund – Nordic Equity Fund

The Sub-Fund Carnegie Investment Fund – Nordic Equity Fund uses the commitment approach to monitor and measure the global risk exposure. The leverage and the gross methods are calculated with every NAV.

Carnegie Investment Fund – Svenska Aktier

The global exposure of the Sub-Fund will be calculated by using the Absolute Value-at-Risk. The level of the monthly Value-at-Risk determined on the basis of a 99% confidence interval for the Sub-Fund shall not exceed 20% of its total net asset value.

The Sub-Fund's expected level of leverage, under normal market conditions, will be determined as the sum of notionals of the financial derivative instruments used. The leverage shall not exceed 250% of the Net Asset Value of the Sub-Fund but higher levels are possible under certain circumstances, including, but not limited to, high levels of market volatility.

In the year from January 1, 2023 until December 31, 2023 the average level of leverage was:

Carnegie Investment Fund - Svenska Aktier
Gross Method: 0% (maximum leverage: 250%)

Indicative risk profile of the Sub-Fund

This Sub-Fund is suitable for the investor seeking a long-term investment strategy, therefore understanding that the investments and related return can be subject to significant change.

The risks associated with equities result from the underlying dynamics as well as the changes in earnings expectations across the corresponding listed companies over the relevant business cycle. The general interest and inflation rate levels, as well as monetary and fiscal policies affect such earnings expectations. The openness of the Swedish economy also results in significantly exposing the revenues of Swedish companies to macro trends in export markets. Investing in Swedish listed equities gives furthermore exposure to cyclical sectors like materials, industrials and technology.

Even if the Sub-Fund invests primarily in highly liquid stocks, the liquidity in the market can change from time to time and have a negative impact on the Sub-Fund.

The Sub-Fund can also be impacted by stock market fluctuations due to economic development and exogenous factors, as policy and regulatory changes in the countries where the issuing companies are active.

The Sub-Fund invests in different currencies and is therefore subject to a risk of value fluctuations due to unexpected changes in exchange rates.

Carnegie Investment Fund – Nordic Equity Fund Screened

The Sub-Fund Carnegie Investment Fund – Nordic Equity Fund Screened uses the commitment approach to monitor and measure the global risk exposure. The leverage and the gross methods are calculated with every NAV.

Carnegie Investment Fund – Global Stock Picking Fund*

The Sub-Fund Carnegie Investment Fund – Nordic Equity Fund Screened uses the commitment approach to monitor and measure the global risk exposure. The leverage and the gross methods are calculated with every NAV.

UCITS V Remuneration Disclosure

Carne Global Fund Managers (Luxembourg) S.A. (the "Management Company") has designed and implemented a remuneration policy (the "Remuneration Policy") in line with the provisions on remuneration as set out by the European Directive 2009/65/EC ("UCITS Directive"), as amended by Directive 2014/91/EU ("UCITS V Directive") as implemented into Luxembourg in the Law of 10 May 2016 (the "2016 Law").

The Management Company has developed and implemented remuneration policies and practices that are consistent with and promote sound and effective risk management of the Fund, do not encourage risk-taking which is inconsistent with the risk profiles/rules governing the Fund, and do not impair compliance with the Management Company's duty to act in the best interest of the Fund and ultimately its investors.

The Board of Directors of the Management Company is responsible for the design, implementation and regular review of the Remuneration Policy. In reviewing the Remuneration Policy, the Board of Directors of the Management Company will consider whether the remuneration framework operates as intended and ensure that the risk profile, long-term objectives and goals of the Fund are adequately reflected. No material amendments were made to the Remuneration Policy and no irregularities were uncovered during the period under review.

A copy of the Remuneration Policy is available, free of charge, at the registered office of the Management Company and at the following address: www.carnegroup.com.

* The sub-fund was launched on September 29, 2023.

Carnegie Investment Fund

Supplementary Information (unaudited) (continued)

UCITS V Remuneration Disclosure (continued)

The below table outlines the total remuneration¹ paid to Identified Staff² of the Management Company during the financial year³:

	Number of beneficiaries	Total remuneration (EUR)*	Fixed remuneration (EUR)	Variable remuneration (EUR)
Senior management	13	2,700,392	2,065,370	635,022
Other material risk takers	13	1,581,520	1,107,338	474,182

*The Management Company has also determined that, on the basis of number of sub-funds/net asset value of the UCITS relative to the number of sub-funds/assets under management, the portion of the total remuneration attributable to the UCITS is €24,636.

Neither the Management Company nor the Fund pays any fixed or variable remuneration to the Identified Staff of the Investment Manager.

Remuneration of the delegates

Carnegie Investment Bank, Copenhagen as Investment Manager of Carnegie Investment Fund – Nordic Equity Fund and Carnegie Investment Fund – Nordic Equity Screened Fund

*Carnegie Investment Bank AB, Stockholm as Investment Manager of Carnegie Investment Fund – Svenska Aktier and Carnegie Investment Fund – Global Stock Picking Fund**

The annual report for Carnegie is available on www.carnegie.se homepage. For information on the remuneration policy please refer to the website.

Carnegie Investment Fund

Appendix - Sustainable Finance Disclosure Regulation and Taxonomy (unaudited)

As at 31 December 2023 the ESG classification for each Sub-Fund are as follows:

Sub-Fund	ESG Classification
Carnegie Investment Fund - Nordic Equity Fund	Article 6
Carnegie Investment Fund - Svenska Aktier Fund	Article 6
Carnegie Investment Fund - Nordic Equity Screened Fund	Article 6
Carnegie Investment Fund - Global Stock Picking Fund	Article 8

For Sub-Funds falling under Article 6, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Carnegie Investment Fund

Appendix - Sustainable Finance Disclosure Regulation and Taxonomy (unaudited) (continued)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Carnegie Investment Fund - Global Stock Picking Fund
Legal entity identifier: 529900BEFRRJ3LJD5434

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 50.12% of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The overarching ESG Strategy for the Sub-Fund is to over time reduce green house gas emissions. At the end of 2023 the green house gas emissions in the Sub-Fund were 27.67 mtCO2e, including Scope 1, 2 and 3, where Scope 3 is being newly implemented and therefore lacks coverage and can include estimates.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Carnegie Investment Fund

Appendix - Sustainable Finance Disclosure Regulation and Taxonomy (unaudited) (continued)

The social part of the sustainability focus is secondary to the environmental focus and includes screening for violations against UN Global Compact Principles. The Sub-Fund promotes social characteristics through investments in the healthcare sector. By end of period there was 0 investments that had a red flag (violations) and 9 investments with an orange flag (watch list) according to MSCI ESG, our ESG data provider.

The environmental characteristics promoted by this financial product with regards to the EU Taxonomy classification system:

- Climate change mitigation

The negative impact of investments on sustainability factors (Principal Adverse Impact/PAI) is taken into consideration as an integrated part of the investment process where focus is mostly on the PAI indicators related to greenhouse gas emissions, i.e. PAI number 1-6.

● *How did the sustainability indicators perform?*

Sector indicators	During the period the composition of the Sub-Fund has changed so that a larger part of the Sub-Fund is invested in companies that are directly related to climate change mitigation. Furthermore, the Sub-Fund composition has shifted and now includes more small and medium-sized companies, where a larger part of the business is related to the climate change mitigation
Activity-based exclusion criterias	0% investments with exposure to Fossil Fuel, Tobacco, Weapons, Gaming, Alcohol, Adult Entertainment. Two transitional investments with fossil fuel exposure has been made, Energias de Portugal and Brookfield Renewable Partners, which represents 3.33% of the Sub-Funds value.
Violations against UN Global Compact principles	0 investments.
Sustainable investments according to SFDR definition	50.12% of Sub-Fund value is invested in sustainable companies.
Taxonomy alignment (reported and estimated)	19.91% of investments total revenue are taxonomy aligned. 5.61% of investments using a pass/fail-approach where pass requires a revenue taxonomy alignment at 100% of total revenue.

● *...and compared to previous periods?*

As this is the first reporting period for the Sub-Fund there is no comparison to any previous period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objective is to over long-time maintain or increase the sustainable investments in line with the SFDR article 2 (17) definition of sustainable investments and the taxonomy aligned revenue. Another objective is, to over long-time maintain or reduce the sustainability risks measured as Principal Adverse Impact (PAI) indicators. Over time this is expected to, among, others, lead to lower emissions of greenhouse gases for society through promoting businesses that are active in this field, and support the development of better social standards.

Carnegie and data vendor MSCI ESG has interpreted the SFDR definition of a sustainable investment if it generates 20% or more of its revenues from activities with positive contribution towards environmental or social objectives, meets the “good governance” as well as the “do no significant harm” (DNSH) criteria. It is a pass/fail approach.

The Investment Manager contributed to decreasing the greenhouse gas emissions, and promote the EU Taxonomy Climate change mitigation by investing in three categories of companies, related to climate change mitigation. The first category is enabling technologies, focusing on new products, solutions and services that enable the energy transition and other areas related to climate change mitigation. The second category is companies with existing products, solutions and services that are required to make the energy transition a reality. The third category is companies that are in the forefront of the transition driven by climate change mitigation, e.g. through internally adopting the best technologies and solutions.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The sustainable investments meet the DNSH criteria through passing a screening of:

- No exposure to controversial weapons
- Maximum 1% of company’s revenue from Thermal Coal
- No exposure to Tobacco Producer
- Maximum 5% of company’s revenue from tobacco
- overall company flag (calculated by MSCI ESG) should not be red (indicates that a company is directly involved in one or more very severe controversies that has not yet been remediated) or orange (indicates that a company has either settled most of the stakeholders’ concerns related to its involvement to a very severe controversy or continues to be

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix - Sustainable Finance Disclosure Regulation and Taxonomy (unaudited) (continued)

involved in a very severe controversy related to its business partners or directly involved in one or more severe cases.)

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

The indicators for adverse impact on sustainability factors have been taken into account during 2023. The indicators were taken into account through quarterly follow-ups on the mandatory PAI indicators not only for the sustainable investments, but for the whole Sub-Fund. The Investment Manager will strive to lower the Sub-Fund sustainability risk. Consideration to mandatory PAI will also be a part of the investment decision.

The sustainable investments meet the following PAI indicators as these are included in the DNSH criteria:

- PAI no 4: Exposure to companies active in the fossil fuel sector
- PAI no 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
- PAI no 14: Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The Sub-Fund is screened for violation against UN Global Compact, but not for violations against OECD Guidelines for Multinational Enterprises.

0 investment violates (red flag) the UN Global Compact, but 9 investments received an orange flag by our data provider. These investments includes: BNP Paribas, Bank of America, JP Morgan Chase & Co, Unitedhealth Group, Apple, Eramet, Roche Holding AG, Tesla and Abbvie.

As PAI number 10 includes both UN Global Compact and OECD Guidelines for Multinational Enterprises, the Investment Manager will monitor the development quarterly together with the monitoring of all PAI's and may act if a substantial increase is observed.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Principle Adverse Impact (PAI) indicators for the total Sub-Fund were at end of period:

Adverse Sustainability Indicator	Metric	Impact	Coverage
GREENHOUS GAS EMISSIONS			
1. GHG Emissions	Scope 1 GHG emissions	3,230.27 tCO2e	98.96%
	Scope 2 GHG emissions	888.16 tCO2e	98.96%

Electric Utilities	3.55%
Cash	0.64%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

At present, listed companies have generally not started to report at which extent their businesses are compatible with the EU-taxonomy. Thus, there is only estimated data available. Carnegie has assessed that this estimated data can be considered reliable enough to be used to determine whether companies are contributing to an environmental goal as defined in the regulation and on that basis can be deemed a sustainable investment. However, Carnegie cannot determine with sufficient certainty individual investment's exact compatibility with the EU-taxonomy. Below information is based on data provided by our data provider.

Reported and estimated taxonomy aligned revenue in % of total investments with E/S characteristics was by end of period 19.91%.

With a pass/fail approach, the share of taxonomy aligned investments is 5.61%. The Investment Manager has assessed that 100% of revenue (reported or estimated) shall be taxonomy aligned to be considered a taxonomy aligned investment, i.e. get a "pass".

Reporting on taxonomy alignment will develop as the EU framework evolves and more accurate data is made available by companies.

The companies outside the EU do not have to comply with EU Taxonomy, which affects these holdings and will lower the taxonomy alignment measures

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

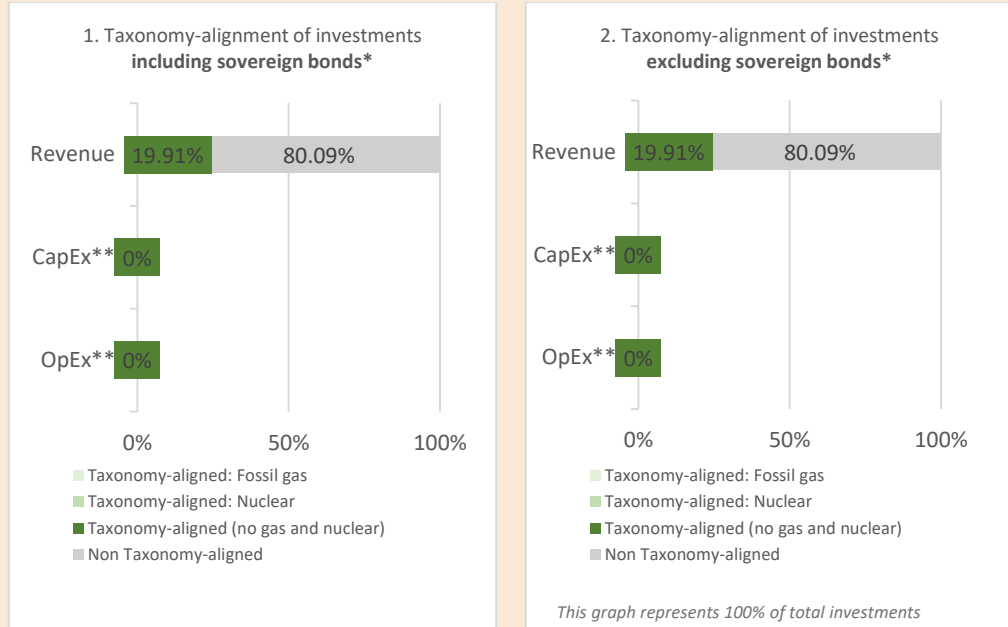

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

** At present, it is not possible to calculate:

- The actual taxonomy-aligned CapEx and taxonomy-aligned OpEx
- The actual expose in fossil gas and nuclear energy related activities that comply with the EU Taxonomy as data is scarce and therefore not reliable.

● What was the share of investments made in transitional and enabling activities?

The Sub-Fund has not committed to a minimum share of investments in transitional and enabling activities.

Taxonomy aligned investments, also passing the Climate Transition Test, meaning investing in transitional activities, was by end of period 20.22% of the Sub-Fund.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

As this is the first reporting period for the Sub-Fund there is no comparison to any previous period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the taxonomy classification system is newly implemented, the sustainable investments could not only be invested in the taxonomy align companies due to need of diversification, amongst other prioritizations.

By end of period, the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy was 40.38% of total investments. The categorization of which investments meet the environmental and social objective respectively has been made by the Investment Manager with a qualitative approach as our data provider not yet include this information in their data set.

What was the share of socially sustainable investments?

This share was 4.13% off total investments by end of period as the Investment Manager had focus on the environment during the period.

The categorization of which investments meet the environmental and social objective respectively has been made by the Investment Manager with a qualitative approach as our data provider not yet include this information in their data set. All healthcare related investments are regarded as Social, while the other investments are regarded environmental.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

This includes cash for managing liquidity, which there are no minimum environmental or social safeguards on.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund has been screened when investing and throughout the investment period for the ESG indicators set up for the Sub-Fund, including exclusions and minimum shares of sustainable investments and taxonomy alignment respectively.

The Investment Manager has not been active in impacting the companies invested in as the Sub-Funds ownership in these multinational companies has been minimal.

The focus for investment selection is companies with E/S characteristics, rather than to be an active owner impacting companies to be more sustainable.

How did this financial product perform compared to the reference benchmark?

The Sub-Fund does not use a benchmark that is aligned with the Sub-Fund's E/S characteristics.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
